

The National Minority AIDS Council works to develop leadership in communities of color to end the HIV/AIDS epidemic.

The National Minority AIDS Council

Our mission is to develop leadership in communities of color to end the HIV/AIDS epidemic. Since 1987, NMAC has advanced its mission through a variety of public policy education programs; national conferences and meetings; treatment and research programs and trainings; electronic and printed resource materials; and our website: www.nmac.org. NMAC represents a coalition of thousands of faith and community based organizations (F/CBOs) and AIDS service organizations (ASOs) delivering HIV/AIDS services in communities of color nationwide. NMAC's advocacy efforts are funded through private funders and donors only.

Inside are some of the various programs and services that NMAC continues to develop in order to achieve our mission.

Inside are some of the various programs and services that NMAC continues to develop in order to achieve our mission.

Division of Community Advancement and Leadership Strategies (D-CALS)

D-CALS provides capacity building assistance (CBA) to improve the ability of community-based organizations (CBOs), health departments (HDs), and prevention planning groups (PPGs) to operate optimally and become sustainable entities to reduce the burden of HIV infection in the United States. Guided by an individualized assessment of resources and needs, D-CALS creates a specialized action plan for organizations approved to receive services.

Capacity Building Assistance (CBA)

For CBOs, NMAC offers assistance on organizational infrastructure and program sustainability topics to enhance organizational infrastructure as it relates to the strengthening and provision of HIV prevention services. Support for health departments centers around tailoring and adapting programmatic activities to improve the organizational framework of CBOs.

For PPGs, services promote effective communication with HDs to successfully develop comprehensive HIV prevention plans based on the latest guidelines, scientific evidence and community needs as well as developing and enhancing collective knowledge and skills essential to PPGs.

Minority Serving Institutions HIV/AIDS Initiative

The Minority Serving Institutions (MSI) HIV/AIDS Demonstration is sponsored by the Department of Health and Human Services Office of HIV/AIDS Policy

(OHAP) and was designed to stimulate innovative and sustainable HIV prevention programs on MSI campuses. NMAC provides technical assistance and support to the seven institutions chosen to participate in this initiative.

D-CALS Resources: www.learninglab.nmac.org

Division of Conferences and Meeting Services (CMS)

NMAC develops and facilitates various national conferences and meetings that bring together the most prominent leaders in the HIV/AIDS community to provide invaluable education and training.

United States Conference on AIDS (USCA)

CMS develops, organizes and implements the U.S. Conference on AIDS (USCA), the largest annual AIDS-related gathering in the country. Thousands of workers representing all fronts of the HIV/AIDS epidemic—from case managers and physicians, to public health workers and advocates, people living with HIV/AIDS (PLWHAs) and policymakers—come together to build national support networks, exchange the latest information and learn cutting-edge tools to end this epidemic.

Treatment Education, Adherence and Mobilization (TEAM):

TEAM's mission is to contain, if not eliminate the transmission of HIV indefinitely by promoting leadership and enabling communities of color to access HIV counseling & testing services, treatment and quality health care. The program aims to provide the tools needed to contain new HIV infections and related comorbidities.

Division of Legislative and Public Affairs (LPA)

NMAC's Legislative and Public Affairs (LPA) Division heads the agency's advocacy efforts, promoting sound national healthcare policy with a focus on issues related to HIV/AIDS, access to care and social justice as they impact communities of color. The Division manages NMAC's public policy development and advocacy, grassroots education, communications and outreach and community mobilization efforts.

Join NMAC in the fight to end the HIV/AIDS epidemic.

Become a Member!

Membership gets you privilege! In addition to receiving regular updates on NMAC activities, programs and services, members are also given preference in the awarding of USCA conference scholarships and awards. Contact NMAC at (202) 483-6622 or via email at members@nmac.org.

Donations

Donations to NMAC, a 501(c)3, are tax deductible to the full extent of the law. To donate, visit www.nmac.org, or use the tear off envelope to send a check or money order made out to the "National Minority AIDS Council". If using a different envelope, the mailing address is:
