Learning Objectives

- **Identify 4 goals and 4 areas of critical focus in the updated National HIV/AIDS Strategy.**
- **Describe ways that community organizations (including yours!) can use the National HIV/AIDS Strategy to support programs and activities, with a focus on HIV testing**

NATIONAL HIV/AIDS STRATEGY
for the **UNITED STATES:**

UPDATED TO 2020

JULY 2015

ESTRATEGIA NACIONAL CONTRA
EL VIH/SIDA
para los **ESTADOS UNIDOS:**

ACTUALIZADA HASTA 2020

JULIO 2015

NATIONAL HIV/AIDS STRATEGY
for the **UNITED STATES:**

UPDATED TO 2020

INDICATOR SUPPLEMENT

AUGUST 2015

NATIONAL HIV/AIDS STRATEGY
for the **UNITED STATES:**

UPDATED TO 2020

FEDERAL ACTION PLAN

DECEMBER 2015

NATIONAL HIV/AIDS STRATEGY
for the **UNITED STATES:**

UPDATED TO 2020

**COMMUNITY ACTION
PLAN FRAMEWORK**

DECEMBER 2015

5 Major Changes Since 2010

**Research is
unlocking new
knowledge &
tools**

92%

96%

**Our prevention
toolkit has
expanded**

**HIV testing &
treatment are
recommended**

**Affordable Care Act
has transformed
health care access**

**Improving the HIV
Care Continuum
is a priority**

THE GOALS

Reducing new HIV
infections

Improving access to care
and health outcomes

Reducing HIV-related
health disparities

Achieving a more
coordinated national
response

Advances in 4 Key Areas Are of Critical Focus through 2020

Widespread HIV testing and linkage to care enabling people living with HIV to access treatment early.

Full access to PrEP services for those whom it is appropriate and desired, with support for medication adherence for those using PrEP.

Broad support for people living with HIV to remain engaged in comprehensive care, including support for treatment adherence.

Universal viral suppression among people living with HIV.

Executive Order to Implement the Strategy

The White House
Office of the Press Secretary

For Immediate Release

July 30, 2015

Executive Order -- Implementing the National HIV/AIDS Strategy for the United States for 2015-2020

EXECUTIVE ORDER

IMPLEMENTING THE NATIONAL HIV/AIDS STRATEGY
FOR THE UNITED STATES FOR 2015-2020

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to ensure improved health outcomes for Americans at risk for or living with HIV/AIDS and achieve greater coordination across the Federal Government, I hereby order as follows:

Government, I hereby order as follows:

HIV/AIDS and achieve greater coordination across the Federal
improved health outcomes for Americans at risk for or living with
the laws of the United States of America, and in order to ensure
by the authority vested in me as President by the Constitution and

PLAN FRAMEWORK**

DECEMBER 2015

THE OUTCOMES BY 2020

 Increase the percentage of people living with HIV **who know their serostatus** to at least **90 percent**.

 Reduce the **number of new diagnoses** by at least **25 percent**.

 Reduce the percentage of young gay and bisexual men who have **engaged in HIV-risk behaviors** by at least **10 percent**.

 Increase the percentage of newly diagnosed persons **linked to HIV medical care** within one month of their HIV diagnosis to at least **85 percent**.

 Increase the percentage of persons with diagnosed HIV infection who are **retained in HIV medical care** to at least **90 percent**.

 Increase the percentage of persons with diagnosed HIV infection who are **virally suppressed** to at least **80 percent**.

 Reduce the percentage of persons in HIV medical care who are **homeless** to no more than **5 percent**.

 Reduce the **death rate** among persons with diagnosed HIV infection by at least **33 percent**.

 Reduce **disparities in the rate of new diagnoses** by at least **15 percent** in the following groups: gay and bisexual men, young Black gay and bisexual men, Black females, and persons living in the Southern United States.

 Increase the percentage of youth and persons who inject drugs with diagnosed HIV infection who are **virally suppressed** to at least **80 percent**.

Summary of Indicator Progress

- **Risk Behavior (YMSM)**
- **Homeless**
- **Diagnosis Disparity (MSM, YBMSM)**
- **Retention**
- **Knowledge of Serostatus**
- **Number of Diagnoses**
- **Linkage to Care**
- **Viral Suppression**
- **Death Rate**
- **Diagnosis Disparity (Black Females, Southern US)**
- **Viral Suppression Disparity (PWID, Youth)**

Developmental Indicators

- **PrEP Uptake**
- **HIV Stigma**
- **HIV among Transgender Persons**

**COMMUNITY ACTION
PLAN FRAMEWORK**

DECEMBER 2015

Federal Action Plan:

Support and Strengthen Screening

NATIONAL HIV/AIDS STRATEGY
for the UNITED STATES:

UPDATED TO 2020

FEDERAL ACTION PLAN

DECEMBER 2015

2016

- **OPA, HRSA, and CDC** will continue to offer HIV testing, and referral in all Title X-funded family planning clinics
- **ACF** will develop resources on HIV screening within the context of IPV and distribute to FVPSA award recipients
- **HUD** will improve identification of homeless persons living with HIV and link them to housing assistance, medical care, and other services.
- **SAMHSA** will provide guidance to grantees to focus testing efforts in communities where HIV is most heavily concentrated

Federal Action Plan:

Support and Strengthen Screening

2017-2020

- **HRSA** will explore adding an HIV screening measure to the UDS reporting system for Health Centers.
- **VA** will increase HIV testing rates among veterans in VHA care
- **DHS**, in collaboration with **CDC and DOJ**, will assess the feasibility of incorporating HIV testing and linkage to care in the current health screening process in IHSC facilities.

**COMMUNITY ACTION
PLAN FRAMEWORK**

DECEMBER 2015

RECOMMENDED STEPS

NOTE: Some of these steps can be taken simultaneously (i.e. connecting with other organizations and stakeholders as you plan your action items).

1. **Read and review the *National HIV/AIDS Strategy: Updated to 2020* and the *Federal Action Plan*.**
 - a. What areas outlined by the Strategy would your organization most like to target?
 - b. Where can your organization best focus your efforts—at the local, state, Tribal, or national level?
2. **Identify your organization's focus areas, existing projects, funding, local network, and potential partners and ongoing activities that are related to the Strategy.**
 - a. What populations in your community are at greatest risk for HIV infection?
 - b. What are the gaps in HIV-related services, policies, education, and awareness in your community?
 - c. What resources (personnel, money, time) does your organization have to dedicate to implementing the Strategy?

FOCUS QUESTIONS

- How can your organization connect people living with HIV to health care coverage?
- What can your organization do to strengthen the current provider workforce and increase the number of HIV providers through integrating services, collaborating across programs and systems, and providing or obtaining training and experience?
- In what ways can your organization help increase screening and treatment for substance use and mental health disorders for persons living with HIV?

EXAMPLES OF ACTIONS FOR STAKEHOLDERS

Community-based organizations can:

- Determine effective ways that HIV testing services can be marketed to populations at highest risk, and take steps to allocate resources accordingly.
- Provide linkage to PrEP services for persons at substantial risk for HIV infection.

Advocacy groups can:

- Promote access to PrEP for those at substantial risk and immediate treatment for persons with diagnosed HIV infection.
- Provide lawmakers and policymakers with the latest scientific information regarding HIV acquisition and transmission risks.

SAMPLE TEMPLATE: EXAMPLE FOR COMMUNITY-BASED ORGANIZATIONS

NHAS GOAL AND STEP	PROGRAMMATIC GOAL	ACTION	TARGET YEAR FOR COMPLETION	LEADERSHIP	PARTNERS	RESOURCES	DATA		COMMUNICATIONS
							MEASURES TO MONITOR PROGRESS	MEASURES OF IMPACT	
Step 1.C: Educate all Americans with easily accessible, scientifically accurate information about HIV risks, prevention, and transmission.	Increase the number of young Black gay and bisexual men (YBMSM) and transgender women in our community who know their HIV	EXAMPLE: Determine effective ways that HIV testing services can be marketed to populations at highest risk. ACTION:	2018	Jane Doe	Community support groups, youth groups, radio and TV stations	\$10,000 x 3 years	Percentage increase of YBMSM and transgender women who know their HIV status, who are taking PrEP or PEP, and who are in treatment	Align with NHAS Indicators #1, #2, #4 and #6	Monthly blog posts, local news interviews

Community Action Plan

Goal 1: Reducing new infections

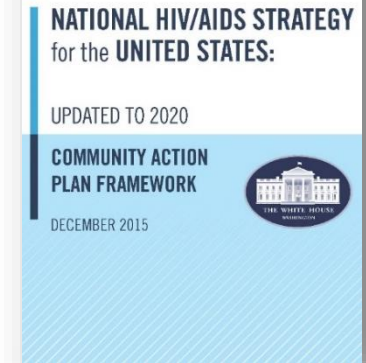

Routine HIV Testing

- **Implement routine HIV screening as recommended by the U.S. Preventive Services Task Force**

Community Action Plan

Goal 2: Increasing access to care and improving health outcomes for people living with HIV

Linkage and Referral

- **Ensure immediate linkage to care** and initiation of treatment as well as culturally-appropriate services that support retention in care

8 Years of Policy Progress in the United States Response to HIV

- **First comprehensive *National HIV/AIDS Strategy***
- **Ryan White HIV/AIDS Treatment Extension Act, 2009**
- **Affordable Care Act, 2010**
- **HIV entry ban lifted, 2010**
 - **Hosted the 2012 International AIDS Conference**
- **HIV Organ Policy Equity (HOPE) Act, 2013**
 - **First transplants conducted, 2016**
- **Authorized use of Federal funds for syringe services programs, 2016**

Reaching the Goals

- As a guiding document, the Strategy is a **National plan, not just a Federal plan.**
- The goals of the Strategy can only be achieved by **engagement at the national, state, Tribal, and local levels and across all sectors.**
- It is especially important that **people who work in communities play an active role** in implementing this Strategy.
- **Everyone is needed** to put this Strategy into action and end the HIV epidemic.
